

Friday Synthesis Symposium – Fall 2020

Fridays at 4:00 PM via Zoom

Zoom registration link will be sent out the week of the talk.

Date	Speaker	Title
Sep 25	Dr. Ren Wiscons (Roy/Nuckolls Groups)	<i>Polytypism, Anisotropic Transport, and Weyl Nodes in the van der Waals Material TaFeTe₄</i>
Oct 9	Dr. Jim Shanahan (Owen Group)	<i>Hydrogen bonding to a dinitrogen complex</i>
Oct 16	Dr. Dominik Reich (Rovis Group)	<i>Multicomponent synthesis of alkylamines and the total synthesis of alkaloids (-)-FR901483 and (+)-TAN1251C by photocatalytic olefin-hydroaminoalkylation</i>
Oct 23	Dr. Nisha Khanizeman (Rovis Group)	<i>Studies towards the synthesis of bioactive natural products</i>
Nov 6	Natalia Gadjeva (Nuckolls Group)	<i>Antiferromagnetism in K-doped p-Trephenyl: The Rise of Intermolecular Resonance Structure</i>
Nov 13	Prof. Ellen Matson (Univ. of Rochester)	<i>TBD</i>
Nov 20	Dr. Nicholas Tay (Rovis Group)	<i>TBD</i>
Dec 4	Dr. Amymarie K. Bartholomew (Roy Group)	<i>Manipulating the Superatomic Ligand Periphery to Build Extended Networks</i>
Dec 11	Dr. Zexin (Henry) Jin (Nuckolls Group)	<i>Efficient Synthesis of Nanographenes and their Applications in Organic Electronics</i>
